Important Dates

Last Date for Paper Submission	: October 31, 2020
Acceptance Notification	: November 07, 2020
Last Date for Registration	: November 14, 2020
Last Date for Final Paper Submission	: November 14, 2020

Registration Fees

Authors of the accepted papers are required to pay a registration fee of ₹ 500 per paper ID. At least one of the authors' listed in the accepted paper must register for the NCOCS-2020 and present their paper.

Payment Details

Payment of the conference registration fees must be made online through NEFT/RTGS/IMPS/UPI to our below mentioned bank account. While making online payment, authors are further requested to mention their Paper-ID and Name in the payment remarks. This will help us to trace your payment in the bank statement.

Account Name	: NITPY Workshop/Conference
Account Number	: 3785433844
Name of the Bank	: State Bank of India
IFS Code	: SBIN0070848
Branch Name	: NITPY Branch, Thiruvettakudy, Karaikal.

No Cheque/ DD/ Cash payments are accepted.

Miscellaneous

Since the second-edition of NCOCS is planned to be held in virtual mode, the participants are required to equip with Laptop/PC/Mobile having internet connectivity. The registered participants will receive further details regarding the online platform and login credentials through NCOCS official e-mail.

About NIT Puducherry, Karaikal

National Institute of Technology Puducherry, Karaikal (NITPY), is an autonomous public engineering institute nestled in the scenes of Karaikal, a coastal enclave in the basin of river Kaveri in the Union Territory of Puducherry. It is one among the 31 National Institutes of Technology of India, and is declared as an institute of national importance by the Government of India, under NIT Act, 2007. The institute was established in 2010, starting its intake in the academic year 2010-11. NIT Puducherry is having a campus spread around 258 acres in the village Poovam and Thiruvettakudi of Karaikal. The institution is at a constant attempt of making endeavours to scale new heights by developing a synergy between studies, research, consulting/training activities, and placements. The institute is ranked at 130 under the category of "India Rankings 2020 - Engineering" of the 2020 NIRF rankings, released by the erstwhile Ministry of Human Resource Development, Government of India.

About the Department of ECE

The Department of Electronics and Communication Engineering offers UG, PG and Ph.D. courses, with a vision to promote research & development in the frontier areas of electronics & communication engineering and technology. The mission of the department is to enable the students to innovate and excel as eminent academicians, technocrats and entrepreneurs. The department has commissioned a new M.Tech course in VLSI Design from the academic year 2020-21. The department has numerous research scholars who are working in the institute/sponsored/funded projects of diverse research fields.

About NCOCS-2020

The idea behind NCOCS is to promote research & development in the field of communication engineering and technology in India. The aim of this conference is to bring academicians, researchers, startups, and industrial practitioners together to exchange their ideas in the area of communications. The 1st edition of NCOCS began in September 2019. It was a grand success with positive feedback from the participants. With an overwhelming response, the organizing team is going to make a second milestone of the NCOCS, in

November 2020. With great support, the team is going to connect globally for exchanging the ideas in the field of machine learning and artificial intelligence for communication systems. Keeping in view of the unprecedented pandemic situation created due to COVID-19, the competent authority had decided to conduct the 2nd edition of NCOCS in virtual mode.

Objectives :

To bring together researchers, young faculties and practitioners working in multi-disciplinary fields to discuss and deliberate on challenges, opportunities and strategies involved for communication systems. The conference will provide a global forum to academic researchers and practitioners to discuss critical issues concerning latest technologies.

Call for Papers

Prospective authors are invited to submit manuscripts reporting original, unpublished research and recent developments in the topics related to the conference. Submissions must include title, abstract, author affiliation with the email address and keywords as per the recommended template. Regular Papers (6 pages in length) should present novel perspectives within the general scope of the conference. Short papers (4 pages in length) are an opportunity to present preliminary or interim results. Submitted papers are limited to the maximum of 6 pages in length, and the typeset should be in standard IEEE conference format. Literature reviews/ survey papers will only be considered if they present a new perspective or benefit the field. To be published, such papers must go beyond view of the literature to define the field in a new way or highlight exciting new technologies or areas of research. The recommended paper templates for NCOCS-2020 can be downloaded using the links provided below.

Who can participate

Professionals from various segments of the Industries, Consultants, University Faculties, Scientists from R&D Institutions, Research Scholars, Students and Corporate Practitioners can attend and present their research articles.

Topics of Interests

Researchers working in the emerging fields of communication engineering and technology are encouraged to submit their original research findings. NCOCS-2020 welcomes original and unpublished research papers in the following topics but are not limited to,

- **Wireless Sensor Networks;**
- **Wireless Communications;**
- **Physical Layer Modelling;**
- **MAC Layer Protocols;**
- **Channel Estimation;**
- **Machine Learning;**
- **Communication Systems for 5G and Beyond;**
- **Underwater Sensor Networks;**
- **Internet of Things;**
- **Internet of Vehicles;**
- **Computer Communications;**
- **Antenna and Wave Propagation;**
- **RF & Microwave Communications;**
- **Satellite and Optical Communications;**
- **Signal Processing;**
- **Image Processing;**
- **Audio and Video Signal Processing;**
- **Speech Processing;**
- **Embedded Systems;**
- **VLSI;**

Publications

The papers submitted to NCOCS-2020 will be peer reviewed by the competent reviewers. The conference proceedings will be published in electronic media by the department of electronics and communication engineering. The conference abstracts and proceedings, certificate of presentation will be distributed to participants.

Further, based on the comments from the technical programme committee, the authors of high-quality papers will be invited to submit the extended version of their presented work in reputed **Scopus Indexed Journals**. The additional publication charges if any, should be borne by the authors.

Selected papers will be published in **The Indian Journal of Technical Education**, ISTE, New Delhi.

Plagiarism Policy

All submitted papers will be subjected to a "similarity test" by iThenticate Software. Papers achieving a minimal similarity index i.e., less than 30% will be examined, and those are deemed unacceptable will be rejected/ withdrawn. Authors are requested to kindly refrain from plagiarism in any form and submit their original and unpublished research work not under consideration for publication elsewhere. As per copyright transfer agreement, authors are deemed to be individually and collectively responsible for the content of manuscripts published by them.
